

Join us in the fight for a cleaner Canada

Public Transit is a key factor in Canada's climate change.

On April 11th, ATU Canadian Council will join the Act on Climate March in Quebec City.

We invite you to join the initiative to ensure federal and provincial action for climate protections and renewable energy.

As operators of Public Transit, we are an essential part of the fight for a cleaner Canada.

Join us at the Act on Climate March and fight for a cleaner tomorrow. Contact Mike Mahar at director@atucanada.ca for more details.
